

# Bio-ING service at the Zeebrugge ING terminal

Fluxys Be lg ium

Sve tla na Bochkova

Ke y a c c o unt m a na g e r

## Fluxys: gas infrastructure company

Tra nsm ission

Storage ING terminalling

- Pre sent a cross Europe
- Majorgastransitoperator
- Fully independent player

#### Our stra te g y

En route for a green tomorrow with investments in Belgium, Europe and beyond

Be fit and grow in Be lg ium and Europe

We optimise our operations in Belgium and Europe while growing our a ssets on a selective basis

Be the transporter of the future energy carriers

We support biomethane initia tives, invest in hydrogen and CO<sub>2</sub> transport projects and explore new technologies

Invest outside Europe

We target natural gas in frastructure with specific focus on LNG

#### Bio-ING service at the Zeebrugge ING terminal

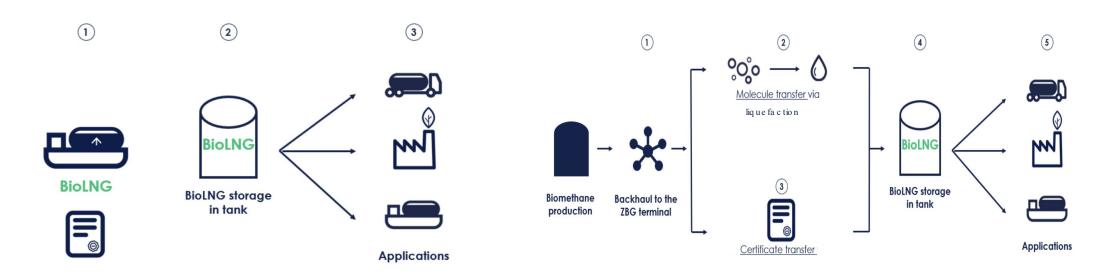

The Zeebrugge LNG terminal is certified according to the ISCC framework since 12/12/2020

### Two ways to obtain bio-LNG at the Zeebrugge terminal

1. Bring b io -LNG with an ISCC Bio -LNG c e rtific a te

2. Bring gas with a biomethane certificate and convert it to LNG with a Bio-LNG certificate

ISC C compliant processes

#### Closing remarks

- Growing market interest for bio-LNG with as destination market alternative fuels for heavy duty transport
- Fluxys developed services allowing our customers to load bio-LNG at the Zeebrugge terminal
- Cross border constraints (recognition of certificates and processes) still limiting observed bio-LNG volumes loaded to date
